To,

The Valued Customers.

SUB: Amendment in Payment terms due to COVID-19 Crisis.

As you are aware the outbreak of Covid-19 virus impacted badly to the global businesses and their day to day activities. As specially to MSME (Micro, Small & medium scale industries). These industries are facing the big heat in cash flow management.

Our all raw material suppliers are falling under the MSME Category and we too, thus they have changed the payment terms i.e. 100% against the Purchase order till end of this year,

Due to this all circumstances our management has decided to amend the payment terms too to maintain the cash flow cycle. i.e. 100% advance against the purchase order with the effect from 1st June to further notice. once everything will be running smoothly, we will be back with our existing payment terms.

We expect your continues support and cooperation in this difficult situation.

Regards
